Notes for Completing Claim for Drawback form

1. METHODS OF ASSESSING DRAWBACK ENTITLEMENTS.

The amount of claim of drawback must be calculated with one of the following methods: -

- (a) **METHOD A: *Shipment by Shipment***, where the claim amount is calculated from the import documents which directly relate to the export consignment.
- (b) **METHOD B: *Representative Shipment***, which covers a variety of assessment methods in which a representative, rather than the actual, import shipment is used.
- (c) **METHOD C: *Imputation***, where claimants are unable to obtain import documents from their suppliers they can use formulae set out in the Customs Regulations to “impute” their entitlements. Imputation may only be used for imports not further processed in Australia.

2. AMBER CLAIMS. If a claimant is uncertain about information included in the claim, or omission of information from that claim, and considers that as a result the claim may be false or misleading in a material particular, the claimant must specify which of the following applies:

- (a) **CALCULATION.** Where the claimant is uncertain about the calculation of the drawback component.
- (b) **DECLARATION.** Where the claimant is unsure about particular information in the responses to the declaration questions.
- (c) **TIME.** Where the claimant is uncertain that the goods subject to the claim for drawback were exported within the 4 year time limit*.

Note! *If a claim is an **Amber Claim** the claimant must detail the reasons for uncertainty in the Amber Claim section of this form.*

3. CLAIM SIMPLIFICATION. Claim lines based on Method B may omit the import declaration numbers and import declaration line numbers if these cannot reasonably be provided.

Note: If the goods are not tobacco or tobacco products, please select ‘**NO**’

4. SUPPORTING DOCUMENTS. Supporting documents are not required to be submitted with the claim form but **MUST** be retained for 5 years from the time the goods were exported and **MUST** be made available to the Department on request.

5. TIME LIMITS*. Drawback cannot be claimed more than 4 years after exportation.

Note: Duty drawback on tobacco products cannot be claimed more than 12 months after exportation.

6. CLAIM AMOUNT LIMIT. The minimum amount per claim is AUD100. Multiple claims of less than AUD100 may be combined into a single claim of at least AUD100.

7. PAYMENT OPTIONS. There are two options available:

- (a) **OPTION A:** Payment made by Electronic Funds Transfer to the **claimant’s Australian bank account** nominated on Claim for Drawback form.
