

## Australian Customs Notice No. 2022/08

### Customs duty rates for tobacco and tobacco products – March 2022

This notice sets out the arrangements for the excise-equivalent customs duty rates on tobacco and tobacco products, as a result of the Average Weekly Ordinary Time Earnings (AWOTE) number released by the Australian Bureau of Statistics on 24 February 2022.

#### Provisions for tobacco products subject to a 'per stick' rate

Sections 19AB and 19AC of the *Customs Tariff Act 1995* (Customs Tariff Act) provide for customs duty rates on tobacco products, where the amount of customs duty is determined on a 'per stick' basis, to be indexed to the AWOTE by application of an indexation factor. The AWOTE Indexation factor is calculated by dividing the most recent AWOTE figure by the highest AWOTE figure for a previous June or December quarter that does not precede the 2012 December Quarter. When the indexation factor is greater than one, the new customs duty rates are determined by the application of the indexation factor. When the indexation factor is less than or equal to one, no change to the customs duty rates are made.

The figures used to calculate the AWOTE indexation factor for March 2022 are set out in the table below.

Most recent AWOTE	Highest previous June or December Quarter AWOTE	AWOTE Indexation factor	Weight conversion factor for September 2020 onwards	
December Quarter 2021	June Quarter 2021		Uliwalus	
1748.40	1737.1	1.007	0.0007	

As the indexation factor for March 2022 (1.007) is greater than one, and where the amount of customs duty is determined on a 'per stick' basis, customs duty rates for tobacco products in Schedules 3 and 4A to 14 to the Customs Tariff Act will be increased by application of the indexation factor.

#### Provisions for tobacco products subject to a 'per kilogram' or 'per kilogram of tobacco content' rate

Section 19ACA of the Customs Tariff Act provides for biannual adjustments of the excise-equivalent customs duty rates applied to tobacco products where the amount of customs duty is determined on a 'per kilogram' or a 'per kilogram of tobacco content' basis. The new rate is determined by dividing the indexed 'per stick' rate by the applicable weight conversion factor. From 1 September 2020, the new rate is determined by dividing the indexed 'per stick' rate by the weight conversion factor, 0.0007.

The rates of excise-equivalent customs duty for tobacco and tobacco products that apply from 1 March 2022 are set out below.

Customs Tarif	ff Subheading	New excise-equivalent customs duty rates			
2401.10.00		\$1,609.83 /kg			
2401.20.00	2403.19.90	\$1,609.83 /kg of tobacco content			
2401.30.00	2403.91.00				
2402.10.80	2403.99.80				
2402.20.80	2404.11.00				
2403.11.00					
2402.10.20	2403.19.10	\$ 1.12688 /stick			
2402.20.20
