Australian Customs Notice

No. 2024/17

Removal of 'nuisance tariffs' and extension of duty reduction for Ukrainian goods

Reduction in customs duty rates of certain 'nuisance tariffs'

From 1 July 2024, the rates of customs duty for 457 tariff subheadings and headings will be reduced to 'Free'. A broad range of goods including certain types of food, clothing, furniture and electrical appliances will be eligible for a 'Free' rate of customs duty when entered for home consumption from this date. The customs duty rates for certain menstrual and sanitary products will also be reduced to 'Free' to align with the GST treatment of these goods.

Commencement of the duty rate reduction

The measure was [announced](#) by the Australian Government on 11 March 2024, and commenced through the Notice of Intention to Propose Customs Tariff Alteration 2024, which is available on the Federal Register of Legislation. Please refer to this notice to view the full list of the tariff headings and subheadings that are affected by this measure.

Updated Tariff Working Pages are at [Attachment A](#) of this notice. The [Online Tariff](#) will be updated with the new rates from 1 July 2024.

Extension of the tariff treatment of Ukrainian goods

On 19 April 2024, the Australian Government [announced](#) it would extend to 3 July 2026, the 'Free' rate of customs duty applicable to goods, other than fuel, petroleum, alcohol and tobacco products, that are the produce or manufacture of Ukraine. The temporary measure was extended by the Notice of Intention to Propose Customs Tariff Alteration (No. 2) 2024, which is available on the Federal Register of Legislation.

Note that where fuel, petroleum, alcohol and tobacco products of chapters 22, 24, 27, 29, 34 or 38 of Schedule 3 to the [Customs Tariff Act 1995](#) have a DC rate of customs duty, if they are the produce or manufacture of Ukraine, the DC rate must continue to be paid for these goods.

Determining originating status

Goods are the produce or manufacture of Ukraine if they meet the requirements for Developing Countries in Division 1A of Part VIII of the [Customs Act 1901](#).

Inputs from Developing Countries can be included as originating in the qualifying region when determining originating status for Ukrainian goods; however, inputs from Ukraine cannot be included as originating in the qualifying region when determining the originating status of goods from Developing Countries.

Claiming a duty reduction in the Integrated Cargo System

To claim the reduced rate of customs duty for goods that are the produce or manufacture of Ukraine, the following can be entered in the relevant fields on a Nature 10, Nature 30 or Nature 10/20 import declaration:

- Origin Country Code: **UA**
- Preference Origin Country Code: **UA**
- Preference Scheme Type: **DCU**
- Preference Rule Type:
 - **P50** (Partly manufacture goods with a minimum 50% local content – no accumulation); OR
 - **URP** (Unmanufactured raw product)

The footnotes of the Customs Tariff Working Pages and Online Tariff have been updated to reflect the extension of this measure.

Where additional information on this measure is required, please refer to [Australian Customs Notice No. 2023/29](#).
