Australian Customs Notice No. 2026/21

July 2026 Tariff Updates

Extension of the tariff treatment of Ukrainian goods

On 12 May 2026, the Australian Government announced it would extend to 3 July 2028, the 'Free' rate of customs duty applicable to goods, other than fuel, petroleum, alcohol and tobacco products, that are the produce or manufacture of Ukraine. The temporary measure was extended by the [Customs Tariff Proposal \(No.2\) 2026](#). Note that where fuel, petroleum, alcohol and tobacco products of chapters 22, 24, 27, 29, 34 or 38 of Schedule 3 to the Customs Tariff Act 1995 have a 'DC' rate of customs duty, if they are the produce or manufacture of Ukraine, the 'DC' rate must continue to be paid for these goods.

Determining originating status

Goods are the produce or manufacture of Ukraine if they meet the requirements for Developing Countries in Division 1A of Part VIII of the *Customs Act 1901*.

Inputs from Developing Countries can be included as originating in the qualifying region when determining originating status for Ukrainian goods; however, inputs from Ukraine cannot be included as originating in the qualifying region when determining the originating status of goods from Developing Countries.

Claiming a duty reduction in the Integrated Cargo System

To claim the reduced rate of customs duty for goods that are the produce or manufacture of Ukraine, the following can be entered in the relevant fields on a Nature 10, Nature 30 or Nature 10/20 import declaration:

- Origin Country Code: UA
- Preference Origin Country Code: UA
- Preference Scheme Type: DCU
- Preference Rule Type:
 - P50 (Partly manufacture goods with a minimum 50% local content – no accumulation); OR
 - URP (Unmanufactured raw product)

The footnotes of the Customs Tariff Working Pages and Online Tariff have been updated to reflect the extension of this measure.

Removal of the United Kingdom Steel Safeguard Measure

From 1 July 2026, preferential duty rates for specific Chapter 72 and 73 steel products under the Free Trade Agreement between Australia and the United Kingdom of Great Britain and Northern Ireland (A-UKFTA) and the Comprehensive and Progressive Agreement for Trans-Pacific Partnership (CPTPP) will be restored, following the expiration of the UK's global safeguard measures on 30 June 2026.

The Customs Tariff (Suspension of Preferential Tariff for Certain UK Originating Goods) Notice 2023 will expire following the UK's decision to end its safeguard measures on Australian goods.

This is consistent with the operation of sections 16A and 16B of the *Customs Tariff Act 1995*. As a result, duty rates for the goods covered by the notice will revert to their preferential rates, and any scheduled periodic reductions will continue as planned under the A-UKFTA (Schedule 16) and CPTPP (Schedule 8B).

New import statistical codes

The Australian Bureau of Statistics has advised that, effective 1 July 2026, new import statistical codes will apply to certain seafood and petroleum products in Chapters 3 and 27 of Schedule 3 to the *Customs Tariff Act 1995*. The statistical code concordance provided below details the changes to be made.
