Imports Message Overview (Inbound Messages and Responses)
Aircraft Operators

Air Impending Arrival Report (AIRIAR)

Must be reported 3 hours before ETA in First Australian Port; and not more than 10 days prior to the ETA in the first Australian Port.

Air Actual Arrival Report (AIRAAR)

Reported before the end of 3 hours after arrival of the Aircraft or prior to the issue of a Certificate Of Clearance of the Aircraft

Air Integrated Cargo Report (AIRINT)

Combined Air Cargo Report and Underbond. Reported 2 hours prior to the ETA of the Aircraft as specified in the AIRIAR

Air Cargo Report (AIRCR)

Reported 2 hours prior to the ETA of the Aircraft as specified in the AIRIAR.

Underbond Movement Request (UBMREQ)

Reported by Airline Companies and CTOs at any time but must have a matching Cargo Report (AIRCR)

Integrated Cargo System

Response messages will only be generated **when the equivalent inbound message is found in error.**

See NOTE below.

This is only applicable to the inbound messages in this table.

The Customs response message name is the same as the industry message, with an R appended to indicate it as a response.

ICS Response Messages

NOTE

UBMREQR messages are generated when the inbound message is error free.

UBMREQE messages will be generated when the inbound UBMREQ message is found in error.

Cargo Status Advice (CARST)

Received by; Cargo Reporters, CTO's and Depots. Only clear statuses will be sent to CTO's initially, if Clear Status Changes, a held status will then be transmitted.
