(a) the quantity specified in that column for that year in relation to the goods; or

(b) if the regulations specify another quantity for that year in relation to the goods—the other quantity;

the Agricultural Minister may, by legislative instrument, make a notice in relation to the goods. The Agricultural Minister must publish the notice in the *Gazette*.

On 1 August 2005 the quantity is exceeded and the Agricultural Minister may publish a notice covering both kinds of goods.

*Content of notice*

- (3) The notice must specify:

  - (b) that the quantity of the goods imported into Australia during the applicable calendar year exceeds the quantity applicable for that year.

The notice may contain any other information that the Agricultural Minister considers appropriate.

- (4) A notice under this section may specify one or more safeguard goods.

*Duty rates*

- (5) Despite subsection 12(2) of the *Legislative Instruments Act 2003*, if:
- (a) the Agricultural Minister publishes a notice under this section; and
  - (b) any safeguard goods specified in the notice are imported into Australia during the period beginning on the day after the publication day and ending on 31 December of the calendar year concerned; then the duty in respect of the goods must be worked out by reference to the general rate set out in the third column of the tariff classification under which the goods are classified (and not under paragraph 16(1)(l) of this Act).
- (6) Subsection (5) does not apply to goods exported from Thailand on or before the publication day under a contract entered into on or before the publication day. However, the quantity of those goods must be counted towards the quantity applicable for the next calendar year in relation to goods of that kind.

- (2) If the words “In respect of remainder” appear in a tariff classification under which goods are classified, those words constitute a phrase for the purposes of this section and the word “remainder” appearing in that phrase must be taken to be a description of:
- (a) all goods that can be constituents of goods that can be classified under the tariff classification; and

## ★ 19 Indexation of CPI indexed rates

(1) If the indexation factor for an indexation day is greater than 1, each CPI indexed rate is, on that day, replaced by the rate of duty worked out using the formula:

$$\frac{\text{CPI indexed rate on the day before the indexation day}}{\text{Indexation factor for the indexation day}}$$

Note: For ***indexation factor*** see subsection (3). For ***CPI indexed rate*** and ***indexation day*** see subsection (10).

(2) The amount worked out under subsection (1) is to be rounded to the same number of decimal places as the CPI indexed rate was on the day before the indexation day (rounding up if the next decimal place is 5 or more).

## *Indexation factor*

(3) The ***indexation factor*** for an indexation day is the number worked out using the formula:

$$\frac{\text{Index number for the most recent reference quarter before the indexation day}}{\text{Index number for the base quarter}}$$

Note: For ***index number***, ***reference quarter*** and ***base quarter*** see subsection (10).

(4) The indexation factor is to be worked out to 3 decimal places (rounding up if the fourth decimal place is 5 or more).

## *Effect of delay in publication of index number*

(5) If the index number for the most recent reference quarter before the indexation day is published by the Australian Statistician on a day (the ***publication day***) that is not at least 5 days before the indexation day, then, despite subsection (1), any replacement of a CPI indexed rate under subsection (1) happens on the fifth day after the publication day.

## *Effect of Customs Tariff alteration*

(6) If a Customs Tariff alteration proposed in the Parliament proposes to substitute, on and after a particular day, a rate for a CPI indexed rate, treat that substitution as having had effect on and after that day for the purposes of this section.

*Changes to CPI index reference period and publication of substituted index numbers*

(7) Amounts are to be worked out under this section:

- (a) using only the index numbers published in terms of the most recently published index reference period for the Consumer Price Index; and
- (b) disregarding index numbers published in substitution for previously published index numbers (except where the substituted numbers are published to take account of changes in the index reference period).

*Application of replacement rate*

(8) If a CPI indexed rate is replaced under this section on a particular day, the replacement rate applies in relation to:

- (a) goods imported into Australia on or after that day; and
- (b) goods imported into Australia before that day, where the time for working out the rate of import duty on the goods had not occurred before that day.

*Publication of replacement rate*

- ★ (9) The Comptroller-General of Customs must, on or as soon as practicable after the day a CPI indexed rate is replaced under this section, publish a notice in the *Gazette* advertising the replacement rate and the goods it applies to.

*Definitions*

(10) In this section:

**base quarter** means the June quarter or December quarter that has the highest index number of all the June quarters and December quarters that occur:

- (a) before the most recent reference quarter before the indexation day; and
- (b) after the June quarter of 1983.

**CPI indexed rate** means:

- (a) an alcohol duty rate; or
- (b) a fuel duty rate.

**December quarter** means a period of 3 months starting on 1 October.

**June quarter** means a period of 3 months starting on 1 April.

**19AAA Rounding of fuel duty rates**

(1) Despite subsection 19(2), the amount to be worked out under subsection 19(1) in respect of an indexation day for a CPI indexed rate that is a fuel duty rate is to be rounded to 3 decimal places (rounding up if the next decimal place is 5 or more).

(2) For the purposes of section 19, determine the CPI indexed rate on the day before the indexation day as mentioned in subsection 19(1) on the assumptions that:

- (a) the operation of subsection (1) of this section was disregarded in respect of all previous indexation days (if any); and

# CUSTOMS TARIFF ACT 1995

32

- (b) subsection 19(2) provided for amounts worked out under subsection 19(1) in respect of those indexation days to be rounded to 5 decimal places (rounding up if the next decimal place was 5 or more).

## 19AB Indexation of tobacco duty rates

- (1) If the indexation factor for an indexation day is at least 1, each tobacco duty rate is, on that day, replaced by the rate of duty worked out using the formula:

$$\text{Tobacco duty rate on the day before the indexation day} \times \text{Indexation factor for the indexation day} \times \text{Additional factor for the indexation day}$$

Note: For *tobacco duty rate* see section 19AC. For *indexation factor* see subsections (3) and (5), for *additional factor* see subsection (6) and for *indexation day* see subsection (12).

- (2) The amount worked out under subsection (1) is to be rounded to the same number of decimal places as the tobacco duty rate was on the day before the indexation day (rounding up if the next decimal place is 5 or more).

### *Indexation factor*

- (3) The *indexation factor* for an indexation day is the number worked out using the formula:

$$\frac{\text{AWOTE amount for the most recent reference quarter before the indexation day}}{\text{AWOTE amount for the base quarter}}$$

Note: For *AWOTE amount*, *reference quarter* and *base quarter* see subsection (12).

- (4) The indexation factor is to be worked out to 3 decimal places (rounding up if the fourth decimal place is 5 or more).
- (5) Despite subsection (3), treat the *indexation factor* for 1 September 2014, 1 September 2015 or 1 September 2016 as 1 if, on that day, it would otherwise be less than 1.

*Additional factor*

- (6) The **additional factor** for an indexation day is:
- (a) 1.125, if the indexation day is 1 September 2014, 1 September 2015 or 1 September 2016; or
  - (b) 1, for each other indexation day.

*Effect of delay in publication of AWOTE amount*

- (7) If the AWOTE amount for the most recent reference quarter before the indexation day is published by the Australian Statistician on a day (the **publication day**) that is not at least 5 days before the indexation day, then, despite subsection (1), any replacement of a tobacco duty rate under subsection (1) happens on the fifth day after the publication day.

*Effect of Customs Tariff alteration*

- (8) If a Customs Tariff alteration proposed in the Parliament proposes to substitute, on and after a particular day, a rate for a tobacco duty rate, treat that substitution as having had effect on and after that day for the purposes of this section.

*Publication of substituted AWOTE amounts*

- (9) If the Australian Statistician publishes an estimate of full-time adult average weekly ordinary time earnings for persons in Australia for a period for which such an estimate was previously published by the Australian Statistician, the publication of the later estimate is to be disregarded for the purposes of this section.

*Application of replacement rate*

- (10) If a tobacco duty rate is replaced under this section on a particular day, the replacement rate applies in relation to:
- (a) goods imported into Australia on or after that day; and
  - (b) goods imported into Australia before that day, where the time for working out the rate of import duty on the goods had not occurred before that day.

*Publication of replacement rate*

- ★ (11) The Comptroller-General of Customs must, on or as soon as practicable after the day a tobacco duty rate is replaced under this section, publish a notice in the Gazette advertising the replacement rate and the goods it applies to.
