 - (a) having regard to the manner in which they are put up, clearly identifiable as being intended to be used together without first being repacked;
 - (b) presented together; and
 - (c) identifiable, whether by their nature or by the relative proportions in which they are present, as being complementary one to another.
- ★ 4.- Where a product answers to a description in one or more of the headings in Section VI by virtue of being described by name or function and also to 3827, then it is classifiable in a heading that references the product by name or function and not under 3827.
